PASSENGERS 60

Versatility is one of the greatest qualities of Catmarine 60. From a comfortable excursion catamaran it can be easily transformed into a base equipped for underwater explorations, a magic school ship for the little explorers of the sea, up to become an amazing location for romantic aperitifs or ceremonies at sunset or under the stars. Catmarine 60 will always live up to your expectations, the limit is only in the owner's imagination! Her efficiency-oriented design and her displacement hulls allow her to reach excellent cruising speeds (9-10 knots) with very low consumption, saving the owner money and helping to sustain the environment.

THE POSSIBILITIES
OF USE OF THE

PEOPLE WHO HAVE ALREADY
PURCHASED CATMARINE 60 ARE
PROUD TO CONFIRM THAT THEIR
INVESTMENT HAS BEEN FULLY
REPAID THANKS TO A GOOD
WORKING SEASON

“We liked the boat right away, but we didn’t think it would be so beneficial. Since it’s in port, customers don’t want to go on our old paranza anymore and prefer to have fun in freedom on our new catamaran. At sea it is a beauty: fast, stable and ecological, and finally in port it is very manageable. We have been able to extend our working days, we start early in the morning with excursions and continue until the evening with fantastic moonlight aperitifs. The seasons are also longer, with diving courses and school trips we work until late September. We were able to estimate a return on investment in just over three seasons and now we are preparing to purchase another one. Great investment, incredible return, success assured.”
